

Radiation Application for Agriculture Biofertilizer

- Use of the Microorganism as Biofertilizer for Yield Increase of Crops instead of Chemical Fertilizer
- Publication of Manual (in progress)
- Publication of Data Base "Who's Who in Biofertilizer"

Mechanism of Microorganism for Biofertilizer

Field Demonstration for Groundnuts in Viet Nam

Province Vinh Puc
(Vietnam Agricultural Science Institute, Viet Nam)

Increase Yield by Biofertilizer	
Groundnuts	13-19% up
Coffee	16% up
Tomato	21% up
Potato	31-72% up
